

Do you want your moulded product lighter yet stronger?

(As proven by Queens University - Belfast, compound results in stronger mouldings)

Do you want your product to be safer, with colour pigment being encapsulated rather than having wipe-off?

(As proven by Queens University - Belfast, compounding encapsulates pigment, dry-blending doesn't)

Do you want service from your supplier that includes all technical information needed to make sure you mould superior quality products?

(We have specialists on staff with more than 30 years experience in the plastics industry)

Would you like to have a relationship with your supplier where a win/win situation develops spontaneously?

(As your growth is our growth, we will do our utmost to grow your business by indexing your price against the Natural LLDPE pellet price.)

**If your answer is “YES” to any of these,
give us a call**
